Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 8, 9, 10 are drawn to a system for granting rights and allocating and deallocating security registers to said directories as classified in class 726 subclass 6.
- II. Claims 2, 4 are drawn to a method for allocating registers, seeking secrets, and verifying knowledge of one or more rights as classified in class 713, subclass 161.
- III. Claim 3 is drawn to a method removing a security register when a new directory is selected except if the selected new directory is a child of the current directory as classified in class 713, subclass 157.
- IV. Claim 5 is drawn to a method for verifying that presentation of the secret has succeeded, and granting rights associated with the secret. Where if the secret does not exist checking subsequent levels. as classified in class 726, subclass 30.
- V. Claims 6 drawn to a method to authorize a function requiring knowledge of a secret where a first secret is known to at least one of the applications along a path in the hierarchy for which the application containing the secret are delimiters as classified in class 713, subclass 182.
- VI. Claims 7 drawn to a method seeking the existence of a reference secret, and refusing and terminating the verification if the secret exists within the current

application as classified in class 726, subclass 17.

- VII. Claims 11-15 drawn to a system with a smart device where each security register contains all rights or secrets which have been granted under the allocated directory as classified in class 726, subclass 20.

Inventions I-VII are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. See MPEP § 806.05(d). The inventions are distinct, each from the other because of the following reasons:

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for any one Group is not required for any other Group, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher J. Brown whose telephone number is (571)272-3833. The examiner can normally be reached on 8:30-6:00.
